Professional Summary

Software Application Developer specializing in Flutter and cross-platform mobile application development. Experienced in building and integrating mobile applications using Flutter, Dart, GetX, REST APIs, and backend services. Worked on multiple application projects across education, banking coaching, OTT streaming, and job-search domains, along with 3 months of professional internship experience contributing to client applications. Skilled in responsive UI development, authentication, API integration, state management, debugging, application optimization, and clean architecture.

Technical Skills

Programming Languages: Dart, Java, JavaScript, PHP, Python, C

Frameworks & Libraries: Flutter, NestJS, Laravel, GetX

Mobile Development: Android, iOS, Cross-Platform Application Development, Responsive UI

Backend Development: Node.js, REST APIs, API Integration, Authentication, Token-Based Authentication

Databases: PostgreSQL, MySQL, MongoDB, Redis

Development Tools: Git, GitHub, Android Studio, Visual Studio Code, Postman

Architecture & Concepts: Clean Architecture, MVC, Object-Oriented Programming, State Management, Application Optimization

Professional Experience

Flutter Developer Intern

Apr 2026 – Jul 2026

Least Action Company

- Developed and maintained cross-platform Flutter applications for Android and iOS as part of a professional development team.
- Contributed to client applications including **SmartBankersInstitute** and an **OTT Streaming Platform**.
- Developed responsive and reusable UI components using Flutter and Dart.
- Integrated REST APIs for authentication, backend communication, and dynamic data handling.
- Implemented token-based silent login with persistent sessions and automatic session restoration.
- Debugged application issues and improved UI responsiveness, API handling, and application performance.
- Used Git and GitHub for source-code management and collaborative development.

Projects

VidyaPath – Smart Educational Management Platform

2026 – Present

- Developing an educational management platform designed to connect teachers and students.
- Implemented teacher-student connections, batch management, note sharing, online examinations, notifications, and profile management.
- Developed responsive mobile interfaces using Flutter and GetX.
- Integrated REST APIs with PostgreSQL-backed services for dynamic application data.

- Applied clean architecture principles to improve maintainability and support future scalability.
- **GitHub:** github.com/pulakgiri/EDU_APP
- **Technologies:** Flutter, Dart, GetX, PostgreSQL, REST API, Shared Preferences

SmartBankersInstitute – Banking Coaching Platform

2026

- Contributed to the development of a mobile learning application for a banking coaching institute during professional internship.
- Implemented authentication and secure silent login using token persistence and automatic session restoration.
- Developed features including profile management, course modules, study materials, and announcements.
- Integrated REST APIs for dynamic content retrieval and synchronization.
- Worked on UI responsiveness, API handling, debugging, and application performance improvements.
- **Technologies:** Flutter, Dart, GetX, REST API, PostgreSQL, Shared Preferences

OTT Streaming Platform

2026

- Contributed to the development of a cross-platform OTT streaming application during professional internship.
- Developed responsive interfaces for home, search, categories, movie details, and user profile sections.
- Integrated REST APIs for authentication, media content, and dynamic application data.
- Worked on loading performance, UI improvements, and overall user experience.
- Collaborated with the development team on application features and backend integration.
- **Technologies:** Flutter, Dart, GetX, REST API, MongoDB, Redis

ESearch – Electronic Job Search Application

2025

- Developed a Flutter-based job search application for discovering employment opportunities.
- Designed responsive job-listing interfaces with a clean and user-friendly experience.
- Integrated backend APIs using PHP and MySQL.
- **GitHub:** github.com/pulakgiri/ESearch
- **Technologies:** Flutter, Dart, PHP, MySQL

WhatsApp UI Clone – Frontend Only

2025

- Developed a Flutter-based WhatsApp interface clone to demonstrate responsive mobile UI development.
- Implemented Chats, Status, and Calls screens with responsive layouts.
- **GitHub:** github.com/pulakgiri/whatsapp_clone
- **Technologies:** Flutter, Dart

Education

Bachelor of Computer Applications (BCA Honours)

Jun 2023 – Aug 2027

Contai College of Learning and Management Science (MAKAUT)

Higher Secondary (WBCHSE)
